MEDICAL & INDUSTRIAL GASES IN STOCK

OXYGEN

(O₂)

Liquid & Compressed

MCL supplies medical and industrial oxygen meeting the highest purity standards — from European Pharmacopeia-compliant medical grades to ultra-pure lab grades. Delivered 24/7 via our nationwide network of 20 filling stations and 30 distributors.

HEALTHCARE · MEDICAL GRADE

Purity: 99.7%

PARAMETER	EU PHARMACOPEIA	MCL STANDARD
Oxygen Purity	99.5% (min)	☺ 99.7% (min)
Moisture	< 67 ppm	☺ < 0.1 ppm
Carbon Dioxide	< 300 ppm	☺ < 0.85 ppm
Carbon Monoxide	< 5 ppm	☺ < 1.0 ppm
Odor	Odorless	☺ Odorless

MCL medical oxygen exceeds European Pharmacopeia 1999 standards — GMP compliant and HTM02 certified.

PACKAGING & DELIVERY

Supply Options

Available in high-pressure cylinders and liquid cryogenic containers for small, medium, and large-scale requirements. Bulk liquid supply via ISO tankers for high-volume industrial users.

COMPRESSED GAS

Oxygen Cylinders

CYLINDER	GAS (M³)	VALVE	PRESSURE
5L	0.8496	Pin index	137 bar
10L	1.699	Side & top outlet	137 bar
47L	6.796	Side & top outlet	137 bar

CRYOGENIC LIQUID

Bulk Liquid Oxygen

- ☑

Portable Cryogenic Containers
Dewar flasks for small hospitals and clinics
- ☑

ISO Tankers (20 ton)
18 tankers — largest fleet in Pakistan

- ✓ **Small Tanks (5 ton)**
7 units for mid-scale requirements
- ✓ **Storage Backup**
1,150,000 m³ liquid medical oxygen reserve
- ✓ **Biweekly Backup Tank**
1,200 ton backup storage — zero-interruption supply

USE CASES

Clinical & Industrial Applications

01

Respiratory Therapy

Critical support for patients with respiratory conditions, delivering precise O₂ concentrations to improve oxygenation.

02

Surgical Procedures

Essential anesthesia support and life-sustaining supply during complex surgical interventions.

03

Steel Manufacturing

Enhances combustion efficiency in steel-making furnaces, improving output and reducing waste.

04

Wastewater Treatment

Dissolved oxygen injection to accelerate biological treatment processes in water facilities.

05

06

Laboratories

Ultra-pure grades for analytical instruments, calibration standards, and research workflows.

Metal Fabrication

Oxy-fuel cutting and welding applications requiring high-purity oxygen for clean, precise cuts.
